

.root

```
graph TD; root[.root] --> Hit[Hit]; root --> Wire[Wire]; root --> Rol[Rol];
```

A hierarchical diagram with a root node at the top labeled '.root'. Three arrows point downwards from the bottom center of the '.root' box to three separate child boxes below it. The left child box is labeled 'Hit', the middle child box is labeled 'Wire', and the right child box is labeled 'Rol'. All boxes have a thick black border.

Hit
